Professional Summary

AI Systems Engineer with **1.5+ years** of direct production AI engineering experience and **10+ years** of combined data science, finance, operations, and automation expertise.

Specialist in designing, building, and deploying **enterprise-grade Generative AI**, RAG pipelines, fine-tuned LLMs, voice AI, and fully autonomous **multi-agent systems** using Google ADK, CrewAI, LangGraph, AutoGen, MCP, n8n, ElevenLabs, AWS Bedrock, SageMaker, Terraform, and LangFuse.

Unique strength: Deep technical AI skills combined with strong financial services domain knowledge (former Finance Manager & Bank Auditor). Proven ability to deliver measurable ROI through automation, cost reduction (**28%**), productivity gains (**50%**), and regulatory-compliant AI solutions.

Core Technical Skills

AI & LLM Engineering

- RAG • QLoRA • Fine-Tuning • Multimodal AI
- Prompt Engineering • LLM Selection & Orchestration
- HuggingFace • LangChain • Gradio • Vector Embeddings & Stores

Agentic AI & Frameworks

- Google Agent Development Kit (ADK)
- OpenAI Agents SDK • CrewAI • LangGraph • AutoGen
- MCP (Model Context Protocol) — multi-server, 44-tool
- Autonomous Agent Loops • Multi-Agent Teams
- Agent Creator

MLOps & Cloud Production

- AWS (Bedrock, SageMaker, Lambda, SQS, Aurora Serverless, App Runner, CloudFront, Route

53, S3 Vectors)

- GCP • Azure ML
- Vercel + Next.js SaaS
- Terraform IaC • GitHub Actions CI/CD • LangFuse Observability
- Docker • Serverless • Clerk Auth • Guardrails

Programming & Data

- Python (expert) • SQL • FastAPI • TypeScript/Next.js
- ETL Pipelines • Pandas • scikit-learn • Google Sheets + APIs
- n8n • ElevenLabs Voice AI

Domain Expertise

Financial services automation • Regulatory compliance (AML, CBN, NFIU) • Forecasting • Cost optimization

Professional Experience

Stardom Financial Services Limited

AI Engineer

Lagos, Nigeria

September 2024 – Present (1 year 6 months)

- Designed and deployed autonomous AI agents for real-time financial monitoring, automated reporting, and operational workflows

- Built enterprise RAG-powered knowledge systems that answer any business query from internal documents and shared drives
- Created agentic workflows using n8n to automate CRM updates, reporting pipelines, and multi-stakeholder notifications
- Implemented production voice AI agents with ElevenLabs for customer interaction and internal automation
- Integrated LLMs with Google Sheets, REST APIs, WhatsApp, Slack & Email — eliminating dozens of manual processes
- Currently building the company's first multi-agent financial analyst team using MCP + Bedrock

Extreme Tech Svcs Limited

Junior Data Scientist

March 2022 – August 2024 (2 years 6 months)

- Built and deployed machine learning models for business forecasting and predictive analytics (Python + scikit-learn)
- Developed end-to-end ETL pipelines (Python + SQL) processing large transactional datasets
- Created executive dashboards and interactive reports driving decision-making
- Performed rigorous model evaluation, hyperparameter tuning, and performance optimization

BOCH SYSTEMS WEST AFRICA

Business Operations & Finance Manager Lagos, Nigeria

May 2016 – February 2022 (5 years 10 months)

- Led financial modeling, forecasting, and strategic analysis for West Africa operations
- Achieved **28% reduction** in operational costs through data-driven optimization
- Increased overall productivity by **50%** via workflow automation and internal dashboards
- Delivered analytics dashboards that significantly improved executive decision-making efficiency
- Supported 15+ large-scale projects while maintaining 85%+ customer satisfaction

Guaranty Trust Bank (GTBank)

Internal Control / Audit Officer Lagos, Nigeria

July 2013 – April 2016 (2 years 10 months)

- Reconciled general ledger with correspondent banks and cleared outstanding items
- Conducted full AML audits across branches, compliance, ORM & MRM units
- Prepared and reviewed regulatory returns to CBN and NFIU with 100% accuracy
- Coordinated external audits and implemented regulatory changes in real time

Education

BSc Computer Science	University of the People
Certificate, Applied Data Science Lab	WorldQuant University
Advanced Diploma in Accounting and Business	ACCA
HND, Secretarial Administration	The Federal Polytechnic Nekede, Owerri

Licenses & Certifications

Advanced AI Engineering — Ed Donner (Udemy 2025)

- AI Engineer Core Track: LLM Engineering, RAG, QLoRA, AI Agents
- AI Engineer Agentic Track: The Complete Agent & MCP Course
- AI Engineer MLOps Track: Deploy Gen AI & Agentic AI at Scale

Additional Certifications

- Google Agent Development Kit (ADK) — Building AI Agents with Google ADK
- AI Engineering Essentials: Navigating the Tech Revolution
- AI Leadership Track: Gen AI, Agentic AI for Business Leaders
- ChatGPT Prompt Engineering for Developers — DeepLearning.AI
- AI Fundamentals — DataCamp (Credential ID: AIF0020038125681)
- Associate Data Engineer in SQL — DataCamp
- Explore a Career in Data Engineering — LinkedIn Learning
- Certificate in Network & Application Security — University of the People (Sep 2025)
- Professional PGD, Customer Relationship & Management — ICRM

Selected Project Highlights

Core Track (LLM / RAG / QLoRA)

- Multi-Modal Airline Customer Support Agent (text/audio/image + function calling + UI)
- Python → Optimized C++ Code Converter (60,000× performance boost)
- Full RAG Knowledge Worker (company expert from shared drive)
- Autonomous E-commerce Deal-Spotting Agent

Agentic Track (CrewAI / LangGraph / AutoGen / MCP)

- Career Digital Twin (this agent — Project 1)
- 4-Agent Software Engineering Team in Docker (CrewAI)
- Autonomous Trading Floor (4 agents + 6 MCP servers + 44 tools)
- Browser Sidekick Agent (LangGraph — like OpenAI Operator)

MLOps Track (Production Deployment)

- SaaS Healthcare App (Next.js + Clerk + Vercel + AWS App Runner)
- Cybersecurity Analyst Agent (MCP on Azure + GCP)
- Multi-Agent Financial Planner (Aurora Serverless + Lambda + LangFuse + Bedrock AgentCore)

Live GitHub: github.com/MrPwill (pinned: AI-Customer-Support-Agent, AI-JobFitAnalyzer, agent-starter-pack, etc.)

Personal Attributes

- Excellent communicator — explains complex AI concepts to non-technical stakeholders
- Strong problem-solver with proven delivery under tight deadlines
- Passionate about ethical, cost-efficient, production-ready AI
- Fast learner always at the cutting edge of Agentic AI and MLOps

This knowledge base is continuously updated (February 2026). Feel free to ask anything about my experience, projects, availability, or how I can add value to your team or business.
